

# Well-thought-out and comprehensive modular system for high product availability

**Pressure reading**  
 manometer directly at the filter housing  
 (Note: Display of a warning notice  
 for filter change is possible  
 by using a RPR-Control)

**Robust design**  
 strengthen filter cover  
 with splash guard

**Universal filter housing**  
 for different filter inserts

**Lengths:**  
 10", 20", 30", 40"

**Low pressure drop**  
 due to fluid flow  
 optimized design

**Bayonet nut connector**  
 safe adaption  
 of the filter inserts

**Ventilation**  
 integrated vent valve

**Easy handling**  
 – quick opening –  
 using clamping screws

**Filter insert for cartridges**

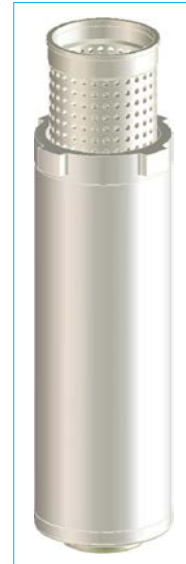

**Threaded connection**  
 for filter draining

**Filter  
 Outlet**

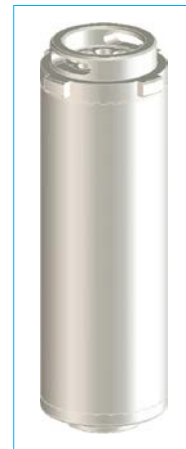

**Filter  
 Inlet**

## Filter inserts

**Insert for  
 filter bags**

**Insert for  
 active carbon**

**Insert for plates  
 (filter paper)**
